Chicago, IL Project: Central A/C - Service or Repair: "I highly recommend these guys. I got on line at 1:30am during the first heat wave in Chicago. By 11:00 the next morning, These guys had called me not once, but twice. By 2:15 pm I had a nice cool house! I could not believe it. The technician not only fixed my HVAC issue, but explained what happened, how to fix it myself, and made a point of talking me through his visit. As someone who knows nothing about air conditioning systems, I thought it was way cool!"
